Content Providers

Engineering Maintainable  
Android Apps

Capstone MOOC for  
"Android App Development"

Feb 18, 2025

**Rishabh Shah**

has successfully completed the online, non-credit Specialization

# Android App Development

This Specialization enables learners to successfully apply core Java programming languages features & software patterns needed to develop maintainable mobile apps comprised of core Android components, as well as fundamental Java I/O & persistence mechanisms. Learners who successfully complete this Specialization will be well-prepared to master the more advanced material in the subsequent "Mobile Cloud Computing with Android" Specialization. The Capstone project will integrate the material from the Specialization to exercise and assess the ability of learners to create an interesting Android app by applying knowledge and skills learned in previous MOOCs.

Dr. Douglas C. Schmidt,  
Professor, Dr. C. Jules  
White, Assistant  
Professor, Dr. Jerry  
Roth, Associate  
Professor of Practice,  
Dr. Julie Johnson,  
Assistant Professor of  
Practice, Mr. Michael  
Walker, Instructor,  
Computer Science

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
